Family Program

As a preventative orthodontic office, we like to examine the children in our patient's family by age 7 to take initial measurements, create baseline numbers and track growth patterns. Usually, no orthodontic treatment will be needed at this time and with that good news, Dr. Jeff and Dr. Jen will place your child in our *Kids Club* Program where they will continue to monitor their growth and development all at **no charge to you!** The *Kids Club* is a special Program just for our younger patients with fun prizes.

Early initial examination results will be sent to your general dentist. This allows us to work in partnership with you, your dentist and your child. If your child has not yet reached their **7th birthday**, we will keep their name in our system and when their **7th birthday** approaches, we will contact you regarding setting up their complimentary evaluation. **If you end up with two family members in treatment at the same time, you would also be eligible for a multifamily discount of 3%!**

Please print the name of the family member being seen for the New Patient Exam:
